Students: 1st Year BSc Students

Intake Capacity: 40

Batch: 1st Batch 2021-2022

Coordinator: Mrs. Anita Almeida

Clean and green environment is a basic need today. The environmental pollution in the form of air, water, and land pollution, has severely affected life. The air quality is unbreathable, water non-potable and the land contaminated, leading to many diseases. A green and clean earth is a prime requirement for all living beings. In the pretext of making a green and clean environment, Maharashtra University of Health Sciences had planned “One Student One tree plantation in all affiliated universities.

On the occasion of Foundation Day of Maharashtra University of Health Sciences, 38 students of Riddhi Vinayak College of Nursing had planted 38 plants in the campus of Riddhi Vinayak Multispeciality Hospital, Nallasopara (West). Students had planted various plants such as Neem, Tulsi and Aloe vera etc as well as mentioned benefits of the trees planted. It was a beautiful experience of doing gardening and planting trees and making the earth a clean and green place to live in. It was an excellent way of inculcating good habits among nursing students.
